Fund Sub-Advisor

Chartwell Investment Partners ("Chartwell") is owned by its employees. Chartwell utilizes a team of investment professionals, who are responsible for the day-to-day recommendations regarding the investment of the portfolio.

Objective

The Fund's objective is long-term growth of capital. The Fund seeks to achieve its objectives by investing primarily in common stocks and American Depository Receipts (ADRs) without regard to market capitalization and placing little or no emphasis on dividend income. Current income is not a significant investment consideration, and any such income realized is incidental to the Fund's investment objective.

Strategy

Chartwell's growth equity investment philosophy is based on the belief that, over time, a company's earnings per share growth is the most significant determinant of long-term stock price appreciation. In light of this, Chartwell seeks out companies with catalysts for growth. In that pursuit, after considering the moral screens, the Fund invests in companies the manager believes will have revenue and earnings growth that exceed the economy as a whole. At any point in time, the Fund may have a significant portion of its portfolio invested in small-cap, large-cap, or mid-cap companies.

Moral Screening

Timothy Plan is committed to maintaining biblically responsible portfolios. If you believe that one of our holdings is violating pro-life/pro-family values, please contact us.
